

LIFT-RITE®

PST-5000 Hand Pallet Truck

PST-5000 HPT

Saving time and energy is the need and the PST-5000 HPT by Lift-Rite is the solution. The right tool for ergonomic Pallet motion.

Technical Details

Rated Capacity	5,000 lbs
Pump strokes to full height	12
Truck Weight	155 lbs
Min. fork height	3"
Max. fork height	7.5"

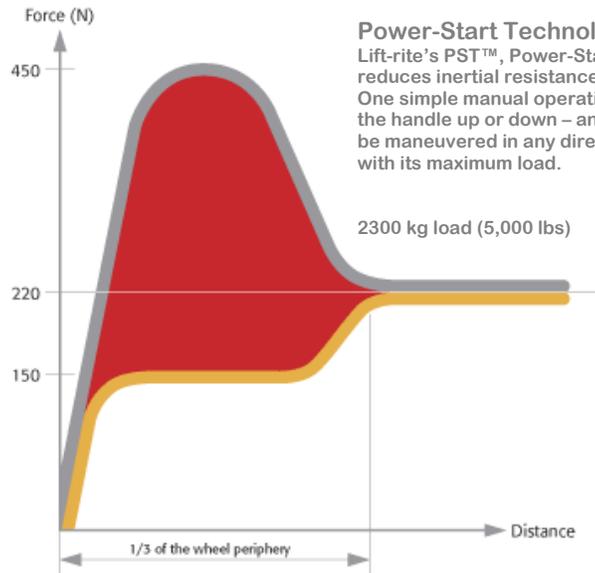

Dimensions (inches)

Fork length	36/ 42/ 48
Width across forks	20.5/ 27

Features and Benefits

Travel direction is selected by an adjusting handgrip on the handle. Squeeze the handgrip, pump the handle and the truck will be powered in the walking direction. When the handgrip is pressed downward, and the handle is raised, the truck will be powered in the direction of the forks.

Power-Start Technology

Lift-rite's PST™, Power-Start Technology reduces inertial resistance to a minimum. One simple manual operation – pumping the handle up or down – and the truck can be maneuvered in any direction. Even with its maximum load.

- With PST™
- Without PST™
- Reduction of Starting Force
